9. AUDIT REPORT AND FINANCIAL STATEMENTS
This Annual Report 2001-2002 gives a clear and in a concise manner the activities of the National Library during the period under review.

The reader will quickly discover the important role of the National Library in information management on aspects for which it has responsibility. The national system of information management is increasingly becoming important as we progressively move towards a knowledge-driven society with the National Library being an important stakeholder.

The achievements would not have been possible without the support of all those who have been involved in the work and activities of the National Library. Our excellent relationship with the Ministry of Arts and Culture was vital in carrying out those activities. I would therefore like to extend my grateful thanks to the Ministry, and all those institutions, organizations and individuals who have contributed in the work of the National Library. My appreciation also goes to the Director and staff of the National Library for implementing the decisions with dedication and commitment.

Finally, I would like to record my sincere appreciation to all the Board Members for their valuable inputs and support throughout the year.

12th February, 2003

DR R.S. Lutchmeah
The year 2001 – 2002 was geared towards consolidating the Library, in terms of collection, infrastructure, and human resources, as a continuation of the implementation of the objectives, as laid down in the Strategic Plan (2000 – 2002). Its progress was regularly monitored by the Management Audit Bureau.

Major attention was focused on the building up of the library collection, and in parallel, providing quality services to its users. In the same breath, the National Library continued to be recipient of various documents and books, donated by various local and foreign organizations and among others, it became the depository of documents of the International Monetary Fund (IMF). The library now offers a good reference service to the Mauritian community at large.

In line with its conservation policy, which is to ensure that Mauritian materials are maintained in a useable condition for as long as possible, the National Library acquired a microfilm camera and a reader printer, which would first and foremost microfilm local newspapers, which are considered as primary source of information.

The National Library, is an apex institution in the organization of information in the country, has been solicited by various ministries to help assisting in the organization of their documentation units. The National Library has also provided consultancy work for other public organizations as well.

Another step towards good practices at the National Library is to lay emphasis on environmental and social issues. The Board approved the setting up of the National Library Staff Welfare Association, whose main objective was to create an ‘esprit de
corps’ among staff and to work for their welfare. The Staff Welfare Association was right away involved in social voluntary works, by organizing a special day for needy children and by giving a lunch for inmates of a social institution in Port Louis.

These were some of the salient achievements of the National Library during the year under review. The National Library will continue to be re-organised and upgraded to become more proactive, both nationally and internationally. I wish to express my deep appreciation to the Chairman, Dr R. S. Lutchmeah, and members of the National Library Board. I wish also to thank my staff for their unflinching support and their devotion to work.

My special thanks go also to the Ministry of Arts and Culture for its cooperation and support.
1. THE NATIONAL LIBRARY BOARD

The National Library is governed by a Board consisting of a Chairman and eleven members. The Board meets once a month and nine members constitute a quorum. It is responsible for the general policies and directions of the Library consistent with the National Library Act. Among the twelve members, six are appointed by the Minister for a period of three years and the six others are representatives of various ministries and departments.

The Board, for the year under review, was constituted as follows:

2. LIBRARY DEVELOPMENT

2.1 Reference Service

In addition to existing services, a new service has been introduced since April 2002, the availability of a good reference collection (non-Mauritiana documents) covering a wide spectrum of subjects ranging from Computer Science, Philosophy, Religion, Sports, Literature History, Geography, Biography etc. This rich collection of about 23,000 volumes is at the disposal of users for on-spot consultation.

In view of the importance of the collection and assets found in the Search Room, a hi-tech rotating video camera and a monitor system have been installed for a better control of the movement of users and the security of the materials displayed.

2.2 International Organisations Depository Programme

During the year under review the National Library has been designated as depository of International Monetary Fund (IMF) documents. A protocol d’accord has been signed between the two institutions. These documents will enhance the reference collections and thus give the user a wide range of publication to consult on the spot.

2.3 Significant Donations

On the 29th November, 2001, a Donation Ceremony was held in the presence of the Minister of Arts and Culture and other eminent personalities. The World Meteorological Organization, through its national representative, donated 90 publications on meteorology. In the same breath, the United States Embassy, through Mrs. Bisa Williams, donated 64 books on a wide variety of subjects. Mr. Deven Maulloo from the Mauritius Film Development Corporation donated some short films and Mr. Rama Poonoosamy from the Association of Advertising Agencies donated a series of their annual souvenir magazine.

The Municipality of Port-Louis donated part of the City Library’s holding of its newspapers, dating back to 1908, which, among others, consisted of bound volumes of Le Cernéen, Le Mauricien, Le Radical and Advance.
The Mauritius Sugar Producers’ Association donated 416 items of library materials including books, magazines, project works, photos and commemorative envelopes.

The National Assembly donated 442 volumes of documents including, *Mauritius Estimates, Administrative Reports, Minutes of the National Assembly, Minutes of the Executive Council, Sessional Papers, Mauritius Blue Books*, etc.

The Prime Minister’s Office donated 522 documents, consisting of *Government Gazette, Debates, Bills, Ordinance etc*, and 5 wooden shelves.

### 2.4 Collection Maintenance

The Mauritiana materials and other significant publications are treated, repaired and maintained by the Binding Unit. Other materials are maintained in a useable condition by keeping them in a better environment. As such, two new dehumidifiers have been installed in the Collection Department.

### 2.5 The Binding Unit

Among the Mauritiana materials in the custody of the National Library, the items most at risk of deterioration are the bound volumes of newspapers received, from the Archives Department. As at date, the Binding Unit has repaired and maintained some 674 materials.

No. of books and reports repaired: 574  
No. of volumes of newspapers maintained and bound: 62  
No. of volumes of magazines bound: 38

The parent Ministry requested to bind its National Assembly’s Parliamentary Questions.

The Mauritius Institute requested to bind 19 books from the Sookdeo Bissoondoyal Memorial Museum.
Mr Sorayah Pathanah of Moka Flacq District Council and Mr Harryduth Boodhoo of the Pamplemousses / Rivière du Rempart District Council followed one month training course for binders conducted at the Binding Unit.

2.6 Setting-up of a Microfilm Plant
In line with the conservation policy, spelt out in the Strategic Plan 2000-2002, the National Library acquired a Microfilm Camera and a Reader/Printer.

The Microfilm Camera will be used to film single and double-sided documents such as broad sheet type tabloid type newspapers and monographs. It has a PC controlled system, backed by a UPS.

The Microfilm Reader Printer with the appropriate accessories will read and print the above-filmed documents. It is equipped with a complete retrieval system and printing functions.

On the job training was provided by two experts from United Kingdom. The National Library has carried out a project study on the microfilming usage and output. As an insight of the dimension of the work, it is expected that with only one Microfilm Camera, it would take almost 70 years to complete the filming of all the newspapers of the library.

Moreover, two laminating machines, one heavy duty and one light, have been acquired for laminating newspapers and materials that are naturally subject to deterioration and use.

2.7 Computer Network Project
The National Library has enlisted the support and expertise of the State Informatics Limited for the elaboration of the specifications to acquire in the first instance, hardwares to serve the immediate and internal needs of the National Library. Subsequently, the National Library will acquire the appropriate software for its external use so as to meet the needs of other local participating libraries.
In the same context, a ‘Memorandum of Understanding’ was signed by both parties whereby both agreed to work together in identifying and carrying out activities with a view to assist both parties in achieving their respective strategic objectives, through the utilisation of modern information and communication technologies, including the implementation of the most appropriate library solutions.

2.8 Cataloguing-In-Publication Programme (CIP)

A Cataloguing-In-Publication Programme was set up as a new service offered by the National Library to local printers. It involves the preparation of a cataloguing entry for a book before it is published. It appears in the printed book more precisely on the verso of the title page. It is a programme which aims at the standardisation of cataloguing and classification of Mauritiana materials. It is also a very helpful tool for librarians in the current processing of mauritian books.
3. REPORT ON HOLDINGS

The holdings of the National Library as at 30th June 2002 were 147,862.

Library materials acquired for the year 1st July, 2001 to 30th June, 2002 amount to 47,980. A breakdown of the newly acquired materials is presented below:

4. SERVING OUR CUSTOMERS

(FACTS AND FIGURES)

The National Library provides a wide range of services which serve the needs of thousands of users of different background each year. The National Library offers a spacious airconditioned Search Room for on-site consultation. Besides, special services are offered for those who prefer to access the library's services from their home or workplace. Requests for information come through the phone, e-mail or fax. During the year under review, the Library managed to answer 420 phone requests and 60 mail and e-mail requests.

For the year under review, the total number of users working at the Search Room was 4,340. It is to be noted that since its opening, the National Library has received 12,378 researchers.

Since the opening of the National Library, the number of users has been on the increase and this trend (as illustrated below) will continue as the Library develops its resources.

4.2 Special Programme for Schools

In line with its statutory objectives to provide and encourage the use of library materials and to provide assistance in information handling techniques, the National Library has organized special programmes along with guided visits for students from the different colleges and primary schools of the island.

The programme was based on the discovery of specific Mauritiana Collections, e.g newspapers of the 18\textsuperscript{th} century and short-term and long-term strategies for preservation of rare collections. The programme also consisted of an introduction to Internet. The Director of the National Library Mr. Chan Kam Lon was the main resource person. The programme was followed by a guided tour of the whole library.

The programmes were conducted on weekdays as from 10.00 am to 14.30 pm for the following institutions as per the list below:

9. AUDIT REPORT AND FINANCIAL STATEMENTS

REPORT BY THE
DIRECTOR OF AUDIT
OF THE REPUBLIC OF MAURITIUS

Examination of the National Library
Financial Statements for the Year ended 30 June 2002

(the logo of the audit office has to be scanned)
REPORT OF THE DIRECTOR OF AUDIT  
ON THE FINANCIAL STATEMENTS OF THE  
NATIONAL LIBRARY  
FOR THE YEAR ENDED 30 JUNE 2002

I have audited the financial statements of the National Library for the year ended 30 June 2002, in accordance with the Statutory Bodies (Accounts and Audit) Act.

2. **Respective Responsibilities of the Library and Auditors.** As required by the Statutory Bodies (Accounts and Audit) Act, the Library is responsible for the preparation of the financial statements and their submission to me. It is my responsibility to form an independent opinion, based on my audit, on these statements and to report my opinion thereon.

3. **Basis of Opinion.** I conducted my audit in accordance with government auditing standards and procedures that are consistent with those recommended by the International Organisation of Supreme Audit Institutions. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Library in the preparation of the financial statements and of whether the accounting policies are appropriate to the circumstances of the Library, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming my opinion, I also evaluated the overall adequacy of the presentation of information in the financial statements.

**AUDIT OPINION**

4. In my opinion, the attached financial statements give a true and fair view of the state of affairs of the National Library as at 30 June 2002 and of its income and expenditure for the year then ended and comply with the Statutory Bodies (Accounts and Audit) Act.
